How to find the perfect fit

- Do not measure yourself over bulky clothing.
- Ask someone to help you or stand in front of a mirror to make sure you are measuring properly.
- Reference the illustrations (below) for instructions on how to measure.
- If you are between two sizes or if you want a loose fit, round up to the next size. Keep in mind that you do not want the garment to be too fitted as you want to be comfortable and have room for movement.

Measuring Sleeve Length

Have someone hold the measuring tape at the center back of your neck. Place your hand on your hip. Have the tape held smooth against your shoulder down your arm to finish below your wrist where your long sleeve shirt would normally finish.

- Short Sleeve
- Long Sleeve

Measuring Sleeve Length

Have someone hold the measuring tape at the center back of your neck. Place your hand on your hip. Have the tape held smooth against your shoulder down your arm to finish below your wrist where your long sleeve shirt would normally finish.

- Short Sleeve
- 3/4 Sleeve
- Long Sleeve

Measuring Neck

Measure around the back of your neck with two fingers under the measuring tape. This measurement is your neck circumference.

Measuring Chest

Wrap the measuring tape around the circumference of your chest right under your arms. Hold the tape snug against your body but do not pull tight and keep it parallel with the floor. Make sure the tape covers the widest part of your chest.

Measuring Chest/Bust

Wrap the measuring tape around the fullest part of your bust. Hold the tape snug against your body but do not pull tight and keep it parallel to the floor. Make sure the tape covers the widest part of your chest.
